

# Civic 3D

*Genuine Accessories Picture Library • release 981221*

---

This digital medium was created in order to provide you with centrally developed visual data for the realisation of your communication on **Honda Genuine Accessories**. On the CD-ROM you will find all pictures of accessories of the **Honda Civic 3D '99** in digital form. As such they can immediately be used in your communication mix.

#### **Working procedure**

This CD-ROM features two folders.

The first one - HI RES - contains all high resolution images. These pictures can be opened in either Adobe Photoshop™ or Scitex™ programmes. They are scanned in CMYK and are ready for use in lithography. These images can be used without loss of quality if the original size of the scanning is respected with a margin of max. 20% (above and below).

The second folder - BMP - contains low resolution images which are not meant for high quality production purposes, but rather for viewing or presenting the products. They can be used in presentation programmes such as Microsoft Powerpoint™.

This CD-ROM is IBM™/Apple Macintosh™ compatible.

If you need more information regarding this medium, do not hesitate to contact
